when it was over, but the Israelis and Syrians ignored one another.

The agreement was also signed by Gen. Ensio Sillasvuo of Finland, commander of the United Nations Emergency Force in the Middle East.

"Owing to an exceptional feat of diplomacy, unparalleled in the annals of international relations, the foundation has been laid on which a reliable structure of peace could be built and strengthened," Gen. Sillasvuo said in a brief speech.

"We all owe a debt of gralitude to all those who have devoted enormous energy, thought and time in negotiating this agree-

'Unceasing Efforts'

"Although the present agreement is not a peace treaty, no one can deny that it represents a milestone in the unceasing ef-forts to achieve a just and lasting peace in the Middle East," he said.

American officials said the pact is a step toward reconven-ing the full Middle East peace conference. They said negotia-

tions could begin in July. Syria refused to participate at the opening of the conference in December and it recessed after two days to wait for Egyptian-Israeli disengagement and Israeli-Syrian troop withdrawals.

Gen. Shafir and Gen. Tayara, with Gen. Sillasvuo as neutral chairman, will start work tomorrow on the technicalities of troop and weapon withdrawals and the exact delineation of the map laying out disengagement positions and the UN-manned buffer zonc. Under the terms of today's agreement, they are instructed to meet for five days, after which

disengagement is to begin and be completed within 20 days. Ambassadors Ellsworth Bunker of the United States and Vladimir Vinogradov of the Soviet Union were observers today. They are co-chairmen of the full peace

Brig, Gen. Tamal Magdoub of Egypt, his country's delegate to the conference's military working group, was also an observer.

Lebanon to Attend BETRUT, May 31 (UPI).-The Lebanese government has decided

to take part in the peace conference at Geneva, Foreign Minister Fuad Naffah said today. He said the government has

received approval for its participation from the United States and the Soviet Union, sponsors of the conference.

Kissinger Cites 'Long Road to Go' But Is Hopeful

WASHINGTON, May 31 (AP).—Secretary of State Henry Kissinger said today that there was "still a long road to go" to a permanent Middle East settlement but that the most difficult problem

The secretary, who spent most of the day briefing President Nixon and members of Congress on his Middle East mission, told reporters that "the first step was the most difficult." This was a reference to the disengagement agreement for the Golan Heights that was

signed today in Geneva. When asked if the quest for a per-manent settlement would be as difficult as achieving the Israeli-Syrian disengagement. Mr. Kissinger said "the most difficult problem was the wide gulf of distrust" that separated Jerusalem and Damascus.

"I now believe the two sides have learned to listen" to each other, the secretary went on.

Mr. Kissinger left the impresion that he will return to the Middle East with Mr. Nixon. He declined to give a date for Mr. Nixon's trip but other administration officials confirmed again today that Mr. Nixon is expected to leave for the Middle East June 8 or June 9.

The officials also said that the presidential trip will be separate from the journey to Moscow, which the White House announced today would begin June 27. There had been speculation that the President might combine the trips, but officials said this was ruled out to avoid leaving the impression that the Soviet sum-

mit was not of higher priority.

Mr. Kissinger and Mr. Nixon met alone for breakfast. The two then joined a score of congressional leaders and Vice-President Ford in the White House Cabinet Room. Mr. Kissinger received a standing ovation on entering. The meeting lasted more than 1 1/3 hours.

In the afternoon, Mr. Kissinger held a closed session with the Senate Foreign Relations

Sen. John Tower, R-Texas, told reporters that the remaining obstacles, in order of importance, "rectification of frontiers, Palestinian refugees and the

question of Jerusalem." Sen. John McClellan, D-Ark., said Mr. Kissinger indicated that

t be deeply involved in the Middle East. Sen. McClellan said "America could serve as a genuine intermediary" in arranging a full peace between the Israelis and Not all congressional reaction

was favorable. Sen. Henry Jackson, D-Wash, said in New York that the agreement is precarious and called the role of the Soviet Union in the Middle East a disturbing and destabilizing factor.

U.S.-Syria Ties BEIRUT, May 31 (AP),-The

United States and Syria have reached agreement in principle to resume diplomatic relations, Which were severed by Damascus during the 1967 Arab-Israeli war, the daily newspaper An Nahar reported today.

Quoting diplomatic sources, the paper said the U.S. Assistant Secentary of State for Near East Affairs, Alfred Atherion, would be named ambassador to Syria. Mr. Atherton was a member of Mr. Kissinger's negotiating team.

Kissinger Given Poll's Top Mark NEW YORK, May 31 (AP)

—The Louis Harris poll has reported that Secretary of State Henry Kissinger scored a record 65 percent good-toexcellent job rating in a nationwide survey taken before the Mideast agreement.

Mr. Harris said yesterday that Mr. Kissinger's score was the highest job-approval rating ever recorded by the polling organization for a member of the executive

Mr. Kissinger got negative marks from only 10 percent of the 1.555 adults queried between May 4 and May 7. The remaining 5 percent were

UN Council Votes Golan Force by 13-0

UNITED NATIONS, N.Y., May 31 (IHT).-The Security Council voted 13-0 today to set up intmediately a 1,250-man UN observer force to oversee the cease-fire and disengagement of Israeli and Syrian troops on the Golan Heights.

The toint U.S.-Soviet resolution was adopted half an hour after it was introduced by U.S. members participated in the vote. China and Iraq earlier dissociat-

ed themselves from the decision. The resolution proposes the establishment of a UN force on the Golan Heights "for an initial period of six months, subject to renewal by further resolution of

the Security Council." A spokesman for the U.S. mission announced, meanwhile, that Secretary-General Kurt Waldheim would go to Washington tomorrow at the invitation of Secretary of State Henry Kissinger to discuss in greater detail the disengagement agreement and What the future

portends." Mr. Waldheim will return to New York and then leave for the Middle East tomorrow night. Diplomats disclosed that Soviet Ambassador Jacob Malik had balked yesterday at setting up the new UN force before Israel

By Robert G. Kaiser

news agency Tass today denied that the Soviet Union has "lost interest in selling oil to Japan." an apparent effort to reassure the Jananese that the Soviet netroleum minister did not mean to close the door to all future sales in a press conference Monday.

Valentin Shashin, the Minister of Oil Production, had told U.S. reporters that the Soviet Union had decided against building an oil pipeline from Irkutsk in central Siberia to Nakhodka on the Sea of Japan that could have provided 25 million or more tons of oil to Japan annually.

[The International Herald Tribune carried the report of Mr. Shashin's press conference in Tuesday's editions and published reaction to it from Washington and Tokyo the following day.]

The Japanese have been necotiating for years on the project and still considered it a possibility, but Mr. Shashin seemed to write it off. Tass's statement tonight, in response to what it called "absurd information" apread by "some bourgeois press agencies." made no effort to resuscitate the pipeline deal.

'Great Possibilities' Instead, it said that there are still "great possibilities for the future" of Soviet oil sales to Japan which remain to be explored. Japan had hoped it might begin to receive oil by 1980. In his press conference, Mr.

News Analysis

Hardliners' Triumph in Ulster Puts Everything Back 2 Years

By Richard Eder

BELFAST. May 31 (NYT).-"Back to the womb," was the despairing comment of a Roman Catholic leader yesterday on the collapse of two years of efforts to construct the politics of consensus in Northern Ireland.

The relief here over the end of the crippling strike, the bustling crowds catching up on their shopping, the lifting of the sense been hovering for two weeks do not disguise the gravity of the political overturn that has come about here.

The marches forced the British to abandon their 50-year support of the Protestant hegemony, impose a system of power-sharing and promise a vestigial link with the South.

The strike has forced the dismantling of the power-sharing system, at least as a coalition of moderate parties. The proposed link with the South, in the form of a Council of Ireland, also dead.

During the coming months, efforts will be made to see if some new version of power-sharing can satisfy both the militants who now dominate the Protestant community and the Catho-lics, battered and fearful after the events of the last two weeks. In the Protestant ranks, the moderates are, for the moment, powerless. The Catholic moderates retain their leadership but

Israeli Reported Killed

Guns Fall Silent on Golan Lin After Final Heavy Barrages

TEL AVIV. May 31 (UPI).— The 31-day-old war of attrition between Israel and Syria on the Golan Heights halted today. The Israell military command reported an end of the shooting 30 minutes after the two coun-

tries signed a troop disengage-ment accord in Geneva.

Before the shooting stopped, the Syrians unleashed a fierce barrage of artillery, tank and rocket fire that fatally wounded an Israeli soldier and left the grassy Golan plain smoldering. The military command said the final bursts of shelling wounded two other Israeli soldiers Syrian Communiques

Syrian communiques said that, in today's combat, Syrian artillery and tanks knocked out two Israeli observation posts, two ar-tillery positions, four tanks and several other vehicles.

Earlier in the day, Israeli fighter-bombers streaked into southern Lebanon and hit Arab guerrilla concentrations along Is-rael's northern frontier. The Israeli command said all the planes eturned safely.

When the zero hour for the Golan cease-fire arrived, at 1115 GMT, the command "Hold your fire" crackled over the Israeli field communications network to the soldiers at their guns. It brought smiles and applause from soldiers who took refuge from the Syrian bombardment in an underground command bunker.

But the Syrian fire continued almost unabated for half an hour

So heavy were the final artil-lery duels that an Israeli gun commander radioed his command post that "I don't have enough guns for all the targets lopposing batteries!."

Pifty-five Israeli soldiers and six civilians died in the daily.

U.S. to Move **Transmitters** Off Okinawa

VOA Station Expected To Shift to S. Korea

By Don Oberdorfer TOKYO, May 31 (WP).—At the insistence of Japan, the United States has agreed to re-move Voice of America transmitters from the island of Okinawa. According to informed sources, the transmitters may be relocated in South Korea.

The five Okinawa transmitters make possible the most important direct American link to the people of China, broadcasting in Chinese 5 1.2 hours daily on mediumwave and 9 1/2 hours daily on shortwave. It also broadcasts 5 hours daily in English and I hour daily in Korean. The U.S.-Japan treaty, which returned Okinawa to Japanese rule in May, 1972, provided that the VOA transmitters could remain for five years, with further operations subject to the approval of both governments.

Peking's Anger Feared

But Japan has pushed for the early removal of the transmitters on the grounds that Japanese law forbids operation of radio broadcasting stations by foreigners. Japan has also been concerned that VOA broadcasts from its soil might irritate

In negotiations here earlier this month, the United States asked Japan to permit continuation of the broadcasts in view of their news and cultural value. Japan insisted on maintaining the May, 1977, cutoff date.

American Embassy officials said today the United States now has agreed in principle to remove the transmitters and has "informally" told the Japanese.

The Voice of America director, Kenneth Giddens, on a visit to Seoul in July, 1972, reportedly took up the question of a potential South Korean transmitter site with President Chung Hee Park and other senior Korean officials. No Korean site has been publicly identified, but several are said to be under consideration.

Some American officials are known to question the wisdom of locating a major new broadcasting facility in South Korea in view of growing political repression there. Several months ago Seoul's Christian Broadcasting Co. was forced to suspend its relay of the VOA's mediumwave Korean language signal for 103 days due to government pressure. VOA occasionally reports Korean news, which is tightly controlled

y Reach \$142 Billion by '80

By Michael Getler HINGTON, May 31 (WP). in U.S. combat readiness and capabilities, much of which will be set in motion in this year's budget, will mean an average increase of 5.2 percent a year in the \$86 billion currently pro- real military spending through for fiscal 1975 to a level the end of the decade and prob-

ably into the 1980s.

Improvements Sought In other words, the improvements being sought in both conventional and nuclear war forces, plus pay raises other than costof-living increases, will help push the total defense budget to almost \$111 billion a year by 1980,

even at today's prices. When price-increase factors of 3 percent and 5 percent a year are figured in the totals reach \$129 billion and \$142 billion respectively to the Brookings cal-

culations. If the new trends are approved and continued, along with numerous modernization projects already under way, the five-year decline in the share of the federal budget devoted to defense will come to an end in fiscal 1975, the authors point out.

Furthermore, they estimate that future defense spending requests by the administration would then increase at roughly the same rate as the economy in general, "which means that there would be no room for a shift in federal spending from military to civilian purposes."

The authors estimate that in

real spending on basic U.S. militery forces is up \$4.3 billion in the fiscal 1975 budget, a figure larger than the Pentagon esti-The authors also say that the inflation factor allowed defense in the January budget submission is already off by an

Pan Am Admits Buying Back Tickets From U.S. Crime Ring

By Robert Lindsey

NEW YORK, May 31 (NYT) - ccs said. But they said they Pan American World Airways secretly paid thousands of dollars to a crime ring to buy back blank

flight tickets stolen from the air-Pan Am officials confirmed the purchase, but defended it on the grounds that, if they had not bought the stolen tickets, the blanks could have been used to make trips around the world that could have cost the airline \$2 mil-

lion or more. At least three transactions took place last fall, through interme-diaries, between the airline and groups allegedly linked by investigators to organized crime, according to government sources in Washington familiar with the proceedings of a federal grand jury in Brooklyn that is inves-

tigating airline-ticket racketeering.

The airline industry, which has long been plagued by thefts of easily negotiable tickets, has been previously approached to buy back stolen tickets, industry sour-

Fifth Body Found

In Arizona Desert GILA BEND, Ariz., May 31 (AP).—Searchers yesterday found the body of a fifth member of a party of scavengers who went looking for brass casings on a U.S. Air Force gunnery range and died, one by one in the desert

The discovery ended a search begun Monday after members of a group hired by a Phocnix man stumbled into the local sheriff's office and told deputies that five other men were setking a way back through the desert, where temperatures soured to 115 de-grees last weekend. The men fied into the desert to elude roadblocks set up by the FBI The bodies of the four others were found Tuesday within a

Collapse of an Irish Compromise

most wretched province, the collapse of the Northern Irish government is a grave and ominous misfortune. The provincial government was wrecked, deliberately and brutally, by the Protestant majority. The weapon was a general strike, backed by the menace of squads of armed men roving the streets. The strike was invoked as the expression of the Protestants' hostility toward the Catholic minority, and their mistrust of the Republic of Ireland to the south. It is not that the Northern Irish government has fallen, in the customary sense in which a parliamentary cabinet leaves office to be replaced by another in an orderly fashion. The strikers have successfully tipped over the whole new constitution, and the intricate political compromises on which it was based. More than 1,000 persons have died in five years of sniping and random bombing in Northern Ireland. Now there is a clear prospect of a wider and more devastating kind of civil war.

Northern Ireland is the tragedy of a democracy in decay. The province remains a puzzle, a place where the normal rules of reasonable political accommodation do not seem to apply. A succession of unsuccessful peacemakers have gloomily concluded that Northern Ireland remains a little enclave of 17th-century religious politics that has somehow escaped the ameliorations of the last several hundred years.

It is a peculiar sort of tragedy, for the adversaries on both sides think that they are defending high and noble principlesbut no one else can see or grasp those principles. Northern Irish politics will make sense to you only if you accept it as selfevident that a person's religion is the most important thing about him, and that it is always in the nature of a religious majority to betray and trample the minority. Both sides, in this case, consider themselves the endangered minority: the Catholics are the minority in the province, while the Protestants are the minority in the island as a whole if you consider the republic to the south. The Protestants' perennial nightmare is Irish unification.

During most of the last five years, the violence has been mainly the work of the Catholics. For the politicians, the basic trouble was that the British model of parliamentary democracy did not work in a community dominated by a Protestant majority that always voted as a bloc. The majority used its power in the most bluntly discriminatory fashion for decades. Recently, amidst the gunfire, the British government slowly worked out a series of compromises that forced the Protestants to share a measure of real power with the Catholics. The solution was along the general lines of means be confined to Northern Ireland. a European coalition cabinet. At the same

Even by the historic standards of Britain'. time, the peacemakers organized a Council of Ireland, to provide a form of consultation between the Northern Irish provincial government and the republic. These compromises and reassurances went into effect at the beginning of this year. Then it was suddenly the Protestants' turn to fear for their traditions and status. Their anxieties were evidently greatly increased by the British election in March. There is a widespread impression in Northern Ireland that the Conservative party favors the Protestants and the Labor party leans to the Catholics. When the Conservatives lost and Labor took office, the Protestants' hostility and suspicion toward London increased sharply. They took, literally, to the bar-

> Electricity was cut. Deliveries of supplies. including food and fuel, were severely disrupted. The frail economy of the province was paralyzed. The strikers finally forced the British to re-establish direct rule from London. That sounds like a victory for the Protestants, and anything that sounds like a victory for one side will mean, of course, increased gunplay from the other.

Just what do the Protestants want? As the Ulster Workers' Council put it, they want "to re-establish democracy and a constitution that maintains our heritage and way of life.' By democracy they mean, unfortunately, simple majority rule in a land where they are two-thirds of the voters. By their heritage they mean Protestant supremacy. They want things to be the way they

The British strategy throughout has been to try to isolate the gunmen from the larger populations that provide them with the essential shelter, money and moral support. Merlyn Rees, Britain's state secretary for Northern Ireland, said a few days ago: "My job is to deal with the security situation so that the moderates will be able to stand up and speak without being afraid of being dealt with by the bully boys and subjected to intimidation of the vilest sort. It is very difficult to be a moderate in Northern Ireland at present. Our job is to help those who are." That job has turned out to be very slow going. For the present, the province remains the perplexing example of an ancient and civilized land where democracy does not work and the spiral into violence is turning faster.

There is now the unhappy prospect that the Northern Irish disaster will demand increasing amounts of attention from the British government. It would inevitably draw the top few men away from the country's urgent questions of economic and foreign policy. If that happens, the damage done by the warring Ulstermen will by no

THE WASHINGTON POST.

Italian Bombshell

The bomb explosion that killed six, wounded 94 and set off a four-hour nationwide general strike in Italy this week is part of a continuing pattern of political violence that has been under way for more than five years. While extremists of the left as well as the right have been active, the initiative appears to be that of Neo-Fascist forces employing terrorism to undermine confidence. increase instability and provoke disorders of the kind that enabled Mussolini to seize power a half-century ago.

Both the Communists, with 27 percent of the popular vote, and the parliamentary wing of the Neo-Fascist Italian Social Movement (MSI), with 9 percent, are assuming moderate poses at the moment. Both have denounced the street fighting and other violence. The Communists clearly are hostile to the Marxist extremists who are outflanking them on the left; but judicial investigations are probing suspected ties on the right between the MSI and rightist extremists, including some suspected of amateurish plotting for a military coup.

As long as Italy's "economic miracle" was under way, with living standards rising steadily, concern was limited. But several years of recession have now been followed by an overheated boom and loaring prices. stimulated further by the cost of imported oil. Import curbs, tight credit restrictions and other deflationary moves which are expected to boost unemployment have stirred

labor unrest. A succession of weak coalition governments has failed to come to grips with fundamental problems of reform in education, the bureaucracy, nousing, health and social services. Meanwhile, tensions 'rave been multiplied by the country's immense social changes since the war, the vast industrialization, the shift from farm to city, the migration from south to north and abroad, the enormous inequalities of wealth. Recent political scandals have added to the malaise.

The Neo-Fascists have attempted to capitalize on these widespread frustrations, plus the bitter divisions within Italy's center-left coalition government over the country's three-year-old divorce law, which has just been upheld by a surprising three-to-two referendum vote. Now, with the divorce issue decisively out of the way, the centerleft coalition appears to be gaining in unity The government's left orientation evidently has created a favorable basis for a new dialogue with the trade unions on the austerity measures that now are vital.

If the anti-Pascist demonstrations provoked by the Brescia bombing reinforce this trend, as appears likely, the country may at last be able to come to grips with it: massive problems-a service to Italian democracy that Neo-Fascist extremism, ironically, will have helped to produce.

THE NEW YORK TIMES.

International Opinion

The Price Sisters

What is to be done about the Price sisters? That 's short of acceding to their demands and removing them to a prison agreeably convenient for themselves, for visiting relatives and for visiting rescuers. That is really unthinkable—the granting to two terrorists of a privilege denied to far

pettier inmates of British prisons. But what should society's attitude be to their alleged incention of starting themselves to death unless they get their way? A brile skepticism at this stage perhaps. They seem to have been striving reasonably officiously in stay alive, otherwise they would have refused liquids and might be dead by now. -From the Detty Telegraph (Longon).

In the International Edition

Seventy-Five Years Ago June 1, 1899

ALEXANDRIA-Ten cases of plague have recently occurred in this city and there have been two deaths. All the cases were of the simple bubonic form, with no pneumonic symptoms. The sick were five Greeks, one Jew and four natives. The injected sector is well determined. It is in the rue Anastasi near the center of the town, which is inhabited by a poor class of Europeans and Jeys.

Henry Hercules and Hats in the Mideast

By C. L. Sulzberger

PARIS-II Henry Kissinger hadn't already received the Nobel Peace Prize (or its better half, he would merit it this year as a result of his remarkable Middle East negotiations, In fact, there isn't any regulation governing that award which should prevent it going twice to the same man if he twice makes peace.

Of course, those who have an automatic tic against anything Kissinger does are probably going to say snide things about him the moment shooting pops off again in the general region of Israel. After all, despite what he did to extricate us from Vietnam, he is still sniped at whenever fresh blood splatters that bru'al land.

The fact is that perfect peace is almost a forgotten concept nowadays except among friendly nations. Those who detest each other show it by violence, even without formal war. And only disengagement—not peace—has been achieved between Israel and Syria. All one has to do is recall the endless roster of other tense fron-

What Kissinger has done, however, is to reduce the level of fighting in Southeast Asia and the Middle East to such a degree that neither area now presents the threat of major world war. He has arranged truce agreements that set in operation actual or potential peace-keeping machinery. The result is that, in two explosive global areas, a discernlble if slow move toward settlement instead of holocaust is now

A Vital Region

The Middle East is infinitely more important than Indochina. Trouble is not confinable to a peninsula and it involves tremendous ideological and religious emotions; it is strategically significant to the two superpowers; and it contains a vast proportion of the energy by which contemporary industrial progress is

Since Israel's creation in 1948, there have been four formal wars in the general area of Palestine from which the Jewish state was carved. Moreover, in between these formal wars, there has been sporadic violence that

The first significant Kissinger success was arrangement of a disengagement formula between Egypt and Israel. This achieve-

often threatened to touch off ment facilitated development of a new friendship between Cairo Washington, prizing Egypt loose from its previous dependence on Moscow. Thus, as 2, spin-off from an initial Palestine truce came a weakening of Russia's strategic position in the Mediterranean.

> But, while Egyptian President Anwar Sadat had always been instinctively pro-American and suspicious of Communism, no such a priori sentiment existed in the Syrian government, which relies unabashedly on Russia for military and diplomatic aid and traditionally considered a "radical" Arab land. It had signed no compact with the Israelis since 1949 when armistice ended the first Palestine

I wrote on May 2. after a long conversation in Damascus with President Hafez al-Assad: "Many miracles have been reported in this part of the world but I. somehow doubt if Henry Kissin-

ger, described as a miracle-maker by his new friend Anwar Badat, President of Egypt, is going to pull one out of his hat when he comes here on his new tour of the Bible lands. To begin with, he doesn't wear a hat."

Well, I am glad to say I was wrong. By brilliance, stubbornness and sheer hard work, by assembling every pressure available through the United States and, it would seem, the Soviet Union, Kissinger achieved the unachievable. A dramatic first step toward possible permanent solution has been signed in Geneva,

Like Hercules with the manyheaded Hydra, Kissinger lopped off every new fire-spitting head of trouble as it grew on the Middle Eastern war serpent,

Thus, Henry Hercules astonishingly managed to achieve the unexpected miracle and I for one am ready not only to buy him the hat he doesn't seem to possess

Mr. Nixon and Mr. Fulbright

By James Reston

WASHINGTON.—The irony of William Fulbright's defeat as tween the Foreign Relations Committee and the Department of State.

For most of his long service as chairman of that powerful committee, Fulbright was at odds with Secretaries of State Dean Rusk and William Rogers. There was nothing personal about this. He was a Rhodes scholar with Rusk at Oxford University and a personal friend and golfing companion of Rogers, but they differed fundamentally on Vietnam, foreign and military aid and other policies, and loitered down into sullen opposition.

President Nixon and Secretary of State Kissinger changed all

that, however, with the reopening to China, their insistence on arms senator from Arkansas is that it control with the Soviet Union happened precisely when he had and their determined efforts for finally established a close and reconciliation in the Middle East -crowned on the day of Fulbright's defeat with agreement between Israel and Syria for a cease-fire along the Golan

> The question now is whether it should be assumed that Fulbright's service in the field of foreign policy should end with his defeat or whether his talents and influence might still be used at this critical point in the relations between the executive and the legislature, and between the United States and the Soviet Union, China, Europe and Japan.

Partisan Problem

In partisan and personal terms it is hard to imagine the President offering to appoint Fulbright to any key foreign policy post, or Fulbright accepting one if offered. but both are in trouble now and cooperation between the parties on foreign policy is not only essential, but may be the last hope of reconciliation here in these tragic days.

It so happens that the President has some key jobs to fill at the State Department. Kenneth Rush, Secretary Kissinger's deputy, has just been transferred to the White House to ease the burdens on Al Haig and supervise economic policy, and two of the three key posts under Rush are

At the same time, Walter Annenberg has asked to come home from his post as U.S. ambassador to London, and while there have been reports that Thurston Morton of Kentucky is being considered for this post, apparently the President has made no commitment to him or anyone else.

Unfortunately, the American political system leaves little room for the defeated warriors of polities. It recognizes the talents and service of remarkable men like David Bruce and Elisworth Bunker, who have served the republic in the highest diplomatic posts, reservices of their party affiliations, and go on into their seventies in such critical missions as Peking or Salgon.

President Roosevelt found a way to use such talents by creating the post of special ambassador for critical missions, which used experienced men without burden-ing them with administrative

responsibilities, but it is harder to use men like Fulbright who have been down in the political pit, arguing against presidents of their own or the other party.

In the parliamentary system of democratic government, in Britin, for example, Fulbright would have had a "safe seat" in the House of Commons so long as he retained his present vigor, and, later, he would have found a place in the House of Lords, where a man's experience and wisdom can be rescued without taxing his energies.

But our system is more sharp and even cruel. We elect them and give them more work than they can stand, and then defeat them and give them less respect than they can bear.

In a sense, our system is probably right. It makes more room for the young. It chooses the men who are coming, like Dale Bumpers, instead of the men who are going, like Fulbright, but we don't have to scrap the Fulbrights just because we defeat them. And this is now the point of Pulbright's defeat

He has just turned 69. He is an old football player, in excellent health, a former university president, whose Fulbright fellows helped promote cultural exchanges between the nations and promoted the notion that collective security and international cooperation were not intolerable but

In the jungle of modern politics, it would be normal to say Fulbright is finished, and his opponents will no doubt say, good riddance, but Kissinger, who has suffered under his bleak and melancholy criticism, is not likely to take that view.

Kissinger is looking for reconciliation, and for men who can help him with the Congress and with his department, and the nations of the world, and he is not likely to say "good riddance." But the President, and not Kissinger, will have the lest word on this, and it will be interesting to see how Nixon, who knows something about political defeat, deals with the question.

Lord Rosebery, 92, Horse-Racing Figure. Dies

LONDON, May 31 (AP).-The sixth Earl of Rosebery, 92, a sporting peer who dominated the British horse-racing scene for more than 50 years, died last night at his country home 40 miles northwest of London.

Lord Rosebury liked to say that he had attended more Epsom Derbys than any other man alive. He probably attended more race meetings, too, and his racing colors primrose and rose hoops -- were a familiar sight on all British tracks.

The earl was a member of the Jockey Club, the elife body which rules British horse racing, from 1924 until his death. He was president of the Thoroughred Breeders' Association from 1932 to

Educated at Ston and Sandhurst Military Academy, he was a Laberal member of Parliament from 1906 to 1910. He was awarded the Military Cross for service in World War I.

VIENNA

Schoenberg—From Pioneer to Monument

By David Stevens

VIENNA, May 31 (IHT).—The centennial of the birth of Arnold Schoenberg is one of the focal points of this year's festival. and it is being celebrated in such a way as to emphasize that the composer has passed directly from being a pioneer to being a monument in his native city without any transitional phase--such as general acceptance, let alone popularity, of his music.

Schoenberg's music figures hardly at all in the festival concerts of the Musikverein. Instead, the centennial headquarters is the Secession—the home of the turnof-the-century anti-academic art movement led by Gustav Klimt-where a magnificent exhibition has been mounted (until July 13) by the Vienna Stadtbibliothek. Its achievement is to present not only Schoenberg as composer, but as painter, teacher, idealist, pro-moter of new music, and in short the whole man.

Not only is Schoenberg seen whole, but he is seen in context. He was himself many-sided, and he existed in a cultural society that was relatively small, closely knit and overlapping, in which the different artistic and intel-lectual disciplines penetrated each other. Thus, at the Secession, one encounters the painter Oskar Kokoschka, the writer Karl Kraus. the architect Adolf Loos, and musicians one would not ordinarily associate with Schoenberg, Furthermore, it is also the centennial of Kraus's birth, and there is another Stadtbibliothek exhibition devoted to him in—of all places the Musikverein.

Bruckner

And, turning the clock back slightly, some of the same ground and people are touched on in the

A view of the Schoenberg exhibition at the Secession with a portrait of the composer

splendid exhibition devoted to Anton Bruckner (born 150 years ago) that opened Wednesday in the Nationalbibliothek.

at center.

Aside from the documents, manuscripts, scores, paintings, posters and what not in the Secession there is a film about Schoenberg and his music on view there daily. In the basement there is a library of cossette tapes that visitors can hear on request -not only most of the music he wrote and arranged, but interviews and talks, many of them made in Los Angeles in his idiosyncratic English in the last couple of years before his death in 1951. Others are German radio broadcasts dating from the early thirties, just before his long exile

About a quarter of the items in the exhibition come from the Schoenberg estate in Los Angeles, which gives this show z completeness unlikely to be soon repeated. This includes about 50 paintings—self-portraits, ex-pressionist "visions," obsessions with eyes and hands—all dating from before World War I and association from his with Kokoschka, Kandinsky and the

Blue Rider group. They give many clues to this artistic personality, reinforced by his own comments on the tapes.

In one interview, Schoenberg says that painting "was the same to me as making music. To me it was a way of expressing my-self, of presenting emotions, ideas and then other feelings, and this is perhaps the way to understand these paintings, or not to under-stand them... I was never very capable of expressing my feelings or emotions in words. I do not know whether this is the reason for my doing so in music and also why I did it in painting, or vice versa. Because I had this as an outlet, I could renounce expressing something in words."

The tapes also give ample evidence of Schoenberg's sensitivity to his view of his own importance, that because of him "the comprehensibility of dissonance is considered equivalent to the comprehensibility of con-sonance," as well as of his contrasting awareness of what he owed to his predecessors: think there is a possibility to learn something from my tech-nical achievement, but I think it is even better to go back to those men from whom I learned I mean to Mosart. Beethoven, Brahms and Bach. I can really tell that I owe very, very much to Mozart and if you study for instance the way in which I have composed my string quartets, then one cannot deny that I have learned this directly from Mozart and I am proud of

He can, on the one hand, speak of being "intoxicated by the experience of having freed music from the shackles of tonality," and on the other of having led an "evolution, not an anarchy or revolution." He speaks of the contribution of the subconscious," and tempers this by saying that "a mind trained in musical logic cannot go wrong, even when it is

not conscious of what it is doing." The duality of his personality comes out in more mundane ways, such as the 'pride and joy" he expresses in a handwritten draft reply to the City of Vienna's congratulations on his 75th birthday (dated Sept. 14), next to his waspish margin note that "my birthday, however, is

There are also the curiosities, such as his 100-square chess board for four players, including pieces to represent artiflery, aircraft, submarines, machine guns and the like, or his own method for detailed scoring of a tennis match.

The Music

And then there is also the music. The Secession has a series of concerts in confunction with the exhibition, including not only Schoenberg's own, but mainly being guided by the programs of the concerts of the Association for Private Musical Performances that he directed with an iron hand from 1918 to 1921. These programs touch on little-known early Schoenberg, but recall his strenuous advocacy of Debussy and Reger, among others.

In the Künstlerhaus there is another series of similarly oriented concerts. Last night's ended with Schoenberg's arrangement of Strauss's "Emperor Waltz" for chamber ensemble. It was a more handsome tribute to the waltz king than anything Vienna has been able to manage in what is, after all, also the centennial of the premiere of "Die Fledermaus."

sur le marché français

of objets d'art of the 1900s and the 1920-1940 period showed. The sale was conducted by Eric Buffetaud, with the assistance of experts Félix Marcilhac and Lynne Thornton, who wrote about the pottery and glass in the auction catalogue. A number of talented craftsmen are still virtual unknowns and, surprisingly, the work of the most famous artists of periods from Emile Galle to François-Emile Décorchemont-has not been properly researched

Bernd Hakenjos, research assistant at the Hetjens Museum Dusseldorf, had the answer: He knew because he had a couple of Bonnefond candelsticks in his collection. Bonnefond was active in Paris before World

THE ART MARKET

The Good, the Bad and the Banal

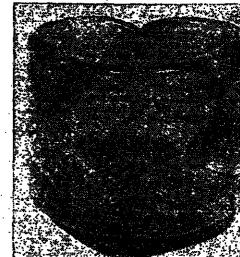

By Souren Melikian

DARIS, May 31 (IHT),-Since art nouveau and art déco have been so publicized—with an accompanying rise in prices during the past five years, it would seem that there is little left worth discovering.

Not so, as Wednesday's auction

The unknowns came up first and on the whole fetched very low prices. When, for example. a pretty pewter ashtray, decoratwith flowing flower patterns in typical 1900-style was sold, hardly anyone took notice: Jules Brateau's name, stamped on the piece, meant little to most at the sale. So the 19-by-10-centimeter work fetched 70 francs. Minutes later, an amusing mirror, the frame made of gilt regule—a 1900 alloy—was laid on the block. It carried the name of one Bonnefond. "Who is he?" Yvonne Brunhammer, France's leading expert on the period was "Don't know," was the answer. "You can't know everything." Lynne Thornton added.

The Answer

Chawanshaped bowl by Emile Gallé which sold for 13,650 francs in Paris.

plant stand, was well below fts

pointed out several inaccurac however good they were. superb piece of forged fromwork, or lack of precision in identifidecorated with vine leaves and bunches of grapes, 103 centi-meters high, sold for peanuts at 720 francs. This jardinière, or

Flea Market price-by about 50 percent Even works by people well known to specialists, such as Claude Linossier, a distinguished metalworker, did not make the grade. An excellent bell metal vase, inlaid with sliver geometric patterns, 13 centimeters high, brought 580 francs—low, commented Yvonne Brunhammer That was in contrast to the lot before, in lacquered brass, which made twice that figure although it was considerably less interesting. But there you had Jean Dunand's signature. Dirt cheap -150 francs—too was the circular mother-of-pearl box, three centimeters in diameter, with Georges Bastard's monogram. With the exception of specialists such as Miss Brunhammer, few - people seemed to be aware that Bastard

that is, ministure marquetry objects. The contrast with the huze prices paid for the more obvious, hackneyed 1900-style objects was ludicrous. A gilt-bronze lamp signed by Agathon Léonard and stamped with the mark "Susse Founders" was knocked down at 12,297 francs. This consisted of dancer in a long 1900-style dress holding a scarf over her head. It is second-rate but typities the most widespread image of art nouveau as a reflection of the "wild years"— hence the price which corre-

was one of the finest art deco-

period artists doing tabletterie,

sponded to a demand. Occasionally, some of the "obvious" pieces happened to be intrinsically of good quality. An example: a fine pâte de verre bowl decorated with purple and black butterflies by Gabriel Argy-Rousseau sold for 4,408 francs (diameter, 11 centimeters)... On the whole, however, the prices paid showed little discrimination between good and bad, rare and

More Striking

This became more striking when it came to the work of two famous glassmakers, Gallé and Decorchemont, whose work is only beginning to be seriously investigated. In Paris for the sale, Bernd Hakenjos, whose doc-toral thesis on Gallé is to be published this fall in Munich,

First, many objects may:

dated very closely just by lor ing up Galle's own notes (pr lished posthumously in 190 museum inventories and ot documents. A fine vase of C nese-derived shape, decorated "glass marquetry," that is, m of several applied layers of mo ed glass, was described in catalogue without any atter at dating it. Hakenjos remarl that a vase of that shape a given to Louis Pasteur in I as an official award. The v was made about 1893 or 1884. sold Wednesday for 15,900 fra -slightly on the low side.

Another piece, also descrif without dating, can be pinpor ed to the years 1897-1899: A pi of the same typical cylindr shape, derived from a Japan tea ceremony chaman with addition of a nooked rim bought at the end of 1897 the Wirttembergisches Lan museum in Stuttgart. The precise date, however, did prevent it from making a g price, 13,650 francs.

One of the most interest pieces in the auction, a 1 decorated in fauve white gray glass, was oddly disrege ed. Hakenjos again had predata. It was made in the y 1906-1907, shortly after Ga death.—He adds that this mi the piece in no way less desirbecause Gallé never particip in the actual glassmaking: gave ideas, sometimes design companied by sketches, but k ed the skill to do things him;g The superb vase was kno down at 13,970 francs, fallin

Very much the same reve of values took place when ine pieces of art deco gl maker Décorchemont were on the block, The first one outstanding quality according for the catalogue raisonné the artist's work, was the and finest piece of a series of It fetched 1,800 francs, hardly what it could have made.

reach its reserve.

The next lot, a blue bowl, made between 1924 and 1921. ought to have been cheaper half than the previous plece

made twice as much. The sale confirmed, if it needed, that 1900 and art is glass is a market blue chip that there are still loopholes those with good eyes and I money.

Around the Paris and London Galleries

he BEATERedekind's hocker' o Shock London

By John Walker DOM. May 31 (DET)... ank Wedekind's play of ren and adolescent sexuality. R Awakening, has outlived ntroversy that used to surits production. It was to consorship when it was to consorand when it was t, in 1890, long benned alformed in London at the Court nine years ago it was it vermon.

is nothing shocking Eill Bryden's excellent proth a masterbation sequence vising for its ugliness, de-Hy and effectively raw. en though today there are oung victims of adult hypocrisy, "Spring Awakhas also perhaps outlived

as a work of outrageous lity, not only in its attack lety's refusal to face the ubout sex and its brilliant on of adolescent agonies. o in its technique, moving re naturalism of its youthnes to the satire on pepedagogy and then its ionist close where the senero. Melchior, is controntfriend and the mysterious masked man who leads him out into

en de la company de la comp La company de la compa

Mr. Bryden's direction, sided by Geoffrey Scott's bleak set and Deirdre Clancy's sombre costumes, has both sensitivity and pace. He is especially good at grouping his characters on the stage—they are momentarily frozen in telling postures. The play is also a showcase for some remarkable young acting talents.

Peter Firth, so good in "Equus." is fine as the precocious Melchior, the only one of the plays three young victims who manages to survive, Michael Kitchen is excellent as the doomed Moritz, afraid of committing nimself to life, who puts a gun to his head a graveyard by his dead rather than face his purents

ON THE ARTS AGENDA

in a staging by Wilfried will be the final new proof the season at the les Schauspielhaus in rg, with the first perforscheduled for June 1. ph Bantzer and Ulla Berplay the principal roles er Schamp's German ver-

National of Angers, Byland.

Ford's "Tis Pity She's a France, has organized a choreographic atelier from July 1 to 14 that will include classes in classical, modern, jazz, mime and other dence forms: 2 program of performances by young French and foreign companies, discussions and films, Among teachers scheduled to be on hand are Irina Hudova, professor at the Bolshoi; Robert Cohan, artistic director of the London Contemporary Dance Theatre; the American choreographer Talley Centre Choregraphique et Beatty, and the mime Pierre

Veronica Quilligan (as Wendla) and Peter Firth (Melchior) in "Spring Awakening." after failing his school exams. And Veronica Quilligan conveys an unconscious eroticism as Wendla, the young girl whose questions about sex are fobbed off with talk of storks. Her scenes with her mother are especially effective, due to the sensitivity of Beryl Reid's performance as Frau Bergmann, all embar-rassed good nature, well-meaning

but destructively ignorant. It is in this depiction of ignorance-due to inexperience by the young and willfulness in the adults, as if there were secreis of living too dark to share with adolescents and repression that "Spring Awakening" still has an intermittent power. "I wasn't prepared for this," says one of the young and it is a cry that movingly echoes throughout the

At the Open Space, "The Shrew" is a short and savage reworking by Charles Marowitz of Shakespeare's comedy of the triumph of male chauvinism, emphasizing the brutality of Petruchio's taming of the spirited Katherine. Petruchio is here a money-seeking adventurer who uses brainwashing techniques to subdue Kate. Her final speech in praise of man as her natural lord and master is done in the style of a Soviet show trial, with Petruchio as judge and Katestarved, grim and defiant-

stumbling through lines she has

had to learn. These scenes are intercut with a modern courtship in which both the man and the woman play games of sexual dominance, culminating in their marriage as Kate stambles over ber words.

The modern parts are not particularly well written and their impact is less than the reworked "Shrew" which also gains from Thelma Holt's deliant Katherine.

At Her Majesty's is The Prospect's deliberately sensationalized production of Shakespeare's "Pericles" which I reviewed during its season at the Round House.

David Storey's "Life Class" opens at the Duke of York's on Tuesday transferring from the Roy 1 Court. The play, about an artist in conflict with his environment, which I reviewed in April. is directed by Lindsay Anderson and stars Alan Bates.

On Wednesday, Sam Shepard's "Tooth of Crime," a play with music, opens at the Royal Court.

AUTHORS WANTED

of all types: liction, non-fiction, poetry, scholarly and religious works, etc. New authors welcomed. Send for vice booklet II-2, tantage Press, 3160, 34 St., New York, N.Y., 1800, U.S.A.

back up Britain's case for what he has called "a fair deal" in budgetary terms.

In 1973, Britain paid only 8 1/2 percent of the EEC budget but nevertheless was the secondlargest net contributor. By 1977, Britain will be paying more than 19 percent and by 1980 more than 24 percent, although by 1977 the British share of the total gross national product of the commu-nity is likely to be little more than 14 percent.

• In London's view, this is unfair. The British think there should be annual adjustments made within the EEC on the basis of members' receipts and contributions. This would even out the burden so that a country doing badly should not have to pay out automatically to partners doing much better.

Although the money factor will be at the center of Mr. Callaghan's case for better terms, he also intends to seek improvements over a range of other issues.

Among them:

Britain wants the community's farm policy drastically reviewed. For almost every bit of food Britain buys outside the EEC it has to pay a fee into the community's coffers. So, too, with customs charged on certain industrial goods. The British want a system permitting food and commodity producers from non-KEC regions free access to their

U.S. to Urge Stronger IMF Trade Powers

By Hobart Rowen

WASHINGTON, May 31 (WP). The United States plans to urge other major powers at the Committee of Twenty meeting here June 12-13 to strengthen the IMF's role in reviewing national trade restrictions that night be

"inappropriate." This was revealed yesterday at a press briefing by Under Secretary for Monetary Affairs Paul Volcker on the potential accomplishments and agenda of the session, its lest in its present form.

Mr. Volcker said that the proposal will parallel the code of behavior adopted yesterday by the Organization for Economic Cooperation and Development (OECD), under which the participating nations agree to refrain from competitive economic measures that might lead to a trade

"We would like to see further reinforcement." Mr. Volcher said. eral action in the trade area or in the current account area for balance of payments purposes, or competitive action—particularly to strengthen the EdF's hand in terms of authority over these

Mr. Volcker said that the new power which would be given the IMP would fill a gao in the current international structure, which leaves unchallenged a trade measure used to help correct a balance of payments deficit.

Italian Example

For example, if the IMF now had the authority proposed by the United States, it could have required the government of Italy to submit in advance its decision earlier this month to require a 50 percent import duty deposit. The IMF would then have reviewed the Italian plan, and decided whether it was "appro-

BRUSSELS, May 31 (AP-DJ).

The Common Market commission has agreed to propose measures aimed at removing, or at least modifying, Italian import curbs on EEC farm products,

to the Italian government by Agriculture Commissioner Petrus Lordinois soon and be discussed at next Tuesday's council of EEC

According to some EEC sources, the commission proposes that the "green lira," which is used to define farm produce prices against the European unit of account, should be devalued 10 percent. Previously, a 7.5 percent devaluation had been suggested by the commission.

In return, the commission proposes that Italy remove the deposit requirement of 50 percent of the value of the imported farm products, except for beef and vest, on which only 25 percent deposits should be required by Rome, sources said.

A Year of Challenge Well Met							

Some figures from the Annual Report, 1973:

"The year under review was abundant with difficulties for Swiss banking. In addition to restrictions already in a distance from the previous year, governing domestic and foreign loans, trade in Swiss securities and the interest ban on toreign balances in Swiss francs, new difficulties arose: negative commissions charged on foreign deposits in Swiss trancs. Further restrictions on new issues; enforcement of partly tightened liquidity regulations as well as the floating of the Swiss trans and the increased minimum statutory reserve requirements Tine direct loss caused by these combined measures resulting in increased costs and, above all, lost income is difficult to #55455 Nevertheless, we estimate the effect on our bank to be at least one quarter of our net profit. Of heavier consequence, however, are the permanent, negative results for Switzerland as a financial centre, adversaly affecting Swiss competitiveness in international banking. It is certain that the Swiss trans has

last participation in the college of due to religion to and to what extent, the to some once idea to be an entirest are able to the long.

After the wealth and will be apply to a robot a satisfactory financial. subject to a least of the bigh assuming one from foreign en hange there. Total net prontisho vs a slight increase of 1 per cent with inversi beinger disigend of 12 per cent. This balance in Vital Time with an All with regard to long-term borrowed. for the control of the control of the control first time of a more in the case of the first recipied a massaud medium deem

MUNDOME

By A. G. Mojtabai. Simon & Schuster. 154 pp. 36.95.

Reviewed by Christopher Lehmann-Haupt

take his time. There is a great deal of information to be planted so that we can follow the elaborate resolution as willingly as we do. There are a multitude of heroic and villainous personalities to establish so that we can cheer and hiss as enthusiastically as we do. And there are literary stereotypes to be overcome: Earl Whitaker, the 14-year-old ragsand-patches orphan who narrates the story: Em Jojohn Earl's gigantic violent Indian sidekick the boardinghouse full of eccentric but lovable old folks for whom Earl and Em do occasional odd jobs: and Quarrytown, Ga., the sleepy Southern hamlet where all the action takes place.

But it doesn't matter in the least that "A Cry of Angels" is leisurely a-building. Mr. Fields is so slick at constructing scenes that his characters are pleasant company even when they seem to be doing nothing. The Southern rural atmosphere is so palpable that we can feel cool dust between our toes, warm sunlight on our shoulders, and endless summer days stretching beyond the horizon. The details are resourceful: Mr. Fields knows how to fashion imitation emeralds by shooting green glass with a BB gun, or how to drown rats by filling a barrel with water and coaung the surface with floating

cottonseeds. And the piot has his original elements 100: the character of Jayell Crooms, for one, an erratic genius of an architect who dreams of improvising livable low-cost homes for Quarrytown's poor blacks but who has stifled hi dreams by marrying a "brass cracker" from Atlanta "Brass eracker. That a what [Jayell calls] these New South kids. the first-generation-off-the-fa.m crowd .. that wants to move to the city and join up with that ner miquie class... and the character of Doc Bobb, for another, a black Flem Shopes who by day keeps a don't-want-tomake-no-trouble profile before the town's upwardly mobile "write trash" and who by night swells with power of terrorising the town's downwardly sinking poor folk. The novel is set in the time of Brown's Board of Education, and it is Doc Bobo who assumes the task of keeping "the niggers in their place.)

So we crift along at Mr. Fielda's pleasure, content to lattygog or sprint as the spirit motes him. And when the climax imally comes-when Doc Bobo force: the old folks out of their boardinghouses and the noor black outof their shanties, so that he can quarry a newly preciered ben of marble, and Javell Crooms (incl-It gets aid of his threes gracket? and starts towing up houses for Fork Times book rememer.

TEFF FIELDS takes his sweet line dispossessed: and a brutal I leisurely time in building the confrontation shapes up; and the ng first novel "A Cry mant Indian Em wades in wit of Angels.' Mr. Fields has to both fists flying-we find ourselves wondering why delightful. old-fashioned novels like this aren't written any more, and grateful that the talented Jeff Fields has come along to fill the

> A.G. Mojtabai's first novel, 'Mundome.' is fictional entertainment of an entirely different order. The story's protagonist. Richard Henken, is an archivist in a large public library, where Excrementum spiritus" collects. "the cranks, the scholars uncowned, the weary the sick." Amidst the clutter of paperwork undone and minds going stale, Richard and his co-workers await the arrival of an efficiency expert.

As home. Richard lives with

ni, sister, Meg. a schizophrenic whom he hopes to nurse back to health with the encouragement of Dr. Grey. In his offlibrary hours. Richard coaxes Meg to go out with him to department stores to parades, to the beach, to playgrounds. But Meg not only seems to be growing steadily more withdrawn, she also appears increasingly to be Richard's Donpelganger. ("Sine veered off into a playground and I caught up with her there. She had saddled herself on the end of a seesaw and was peering up at me expectantly with the wide eyes of a child. In perfect understanding I molded her fingers around the hard support, I saddled myself on the opposite end to counterbalance her. She is so light. I felt as if I were playing a dangerous game on a loose diving board. Our motion was abrupt, choppy. We rose and fell, rose and fell, now Meg, now myself ascendant."1 At the end, when the efficiency expert arrives at the library, it turns out to be Dr. Grey.

After two readings, I am still not certain how all the parts of this extremely rich and puzzling novel fit together. Nor am I even sure that they are meant to do so camony other things, "Mundome" means "a deliberately ungrammatical construction, a forced juxtaposition of words that cannot fuse without some connective of action or relation". But the book conveys a terrifying sense of vertigo, of reality fading away before the depths of the mind's obsessions. And the clues that I did track down yielded treasures enough to suggest that Mrs. Mojtabai, a New Yorker who has studied and taught philosophy and non works as a librarian at City College, has come close to creating a genuing Nabokovian labyrinth, a verbal landscape woose ultimate standard of reality is itself alone.

IN AID OF MEDICAL TREATMENT AND RESEARCH

ME. May 31 (UPI).— Top-seeded Chris Evert of the Mastase, the defending chamnia's lie Nasiase, Sweden's United States reached the pion and the top men's seed.

Borg and America's Stat. women's semifinals but Britain's overname a bed first set on the reached the quarterfinals Virginia Wade, the second seed, rain-softened center court at the in the 31st Italian Open fell-7-5, 6-3 to South Africa's Pat Foro Italian to defeat Roscos schamplonships.

Tanner of the United States, the IELD seed, 3-6, 6-1, 6-3,

Borg, third-seeded, beat 14th-seeded Marty Rieseen of the United States, 6-1, 7-8.

. Fourth-seeded Smith recled off

a second-set shutout in defeating 13th-seeded Eddie Dibbs of the United States, 7-5, 6-0. Also reaching the men's quar-terfinals were Guillermo Vilas of Argentina, Russia's Alex Metre-

veli, America's Brian Gottfried and Manuel Orantes of Spain. Vilas beat West German Karl Meiler, 6-2, 6-1, and the eighthseeded Metreveli ousted ninthseeded Jiri Hrebec of Czechozlovakia, 6-2, 6-1,

Orantes, the sixth seed and perhaps the holtest player in the tournament, thrashed Rhodesia's Roger Dowdeswell, 6-1, 6-1. Twelfth-seeded Gottfried whipped Egypt's Ismail el Shafel, 7-5, 6-0. Kulevitz Wins

American Steve Kulevitz beat Italy's Tonino Zugarelii, 6-2, 7-6, to gain a quarterfinal berth. The victory gave the United States three of the final eight spots in the men's singles. Evert moved to a 6-1, 6-1 vic-

tory over Japan's eighth-seeded Kazuko Sawamatsu. In the other women's quarter-

finals, Czechoslovakia's Martina Navratilovs, the sixth seed, edged third-seeded Helga Masthoff of West Germany, 4-6, 7-5, 7-6. The Soviet Union's fourthseeded Olga Morosova beat fifthseeded Julie Heldman of the

United States, 4-6, 6-4, 6-2, and will meet Evert in a semifinal hattle. Nastase and Tanner traded service breaks in the fourth and games of their first set and the left-handed American broke Nasiase again in the eighth. Nastase saved four set points in

the ninth game before Tanner won on a forehand chip. Nastase swept over Tanner in the second set, breaking service in the fourth and sixth games. He broke the American again in the third and fifth games of the final set, at one stage winning 10 straight points as Tanner's net

game fell apart. The 17-year-old Borg used a powerful service and accurate baseline drives to hammer Riessen, 6-1, in their opening set. breaking the American's service

Summit Meeting On Hockey Is Set

TORONTO, May 31 (AP) .- A summit meeting of world hockey powers that might lead to open World Cup competition will be held here during the weekend when European hockey officials meet with their Canadian coun-

"Well be discussing what the future holds for hockey on an official competitive and ex-change exhibition basis as far as national and club teams are concerned," said Gordon Juckes. ex-ecutive secretary of the Canadian Amateur Hockey Association.

Also taking part in the meeting with representatives from the Soviet Union, Czechoslovakia, Sweden and Finland will be Jack Develue, CAHA president, and Lou Lefaire and Doug Fisher of Hockey Canada, as well as World and National Hockey League spokesmen.

Bulgaria Triumphs

SOFIA. May 31 (Reuters) .-World Cup finalists Bulgaria beat a North Korean selection, 2-0, here in a soccer exhibition. The Bulgarians, who are in a World Cup preliminary group with Sweden, Urugua; and the Netherlands, face England here tomorrow in another warmup game.

In Court Test

French Ace Connors, Goolagong

By Bernard Kirsch

PARIS, May 31 (IHT).-Although they had France's foremost lawyer against capital punishment on their side, Jimmy Connors and Evonne Goolagong today could not win a stay of

The young tennis stars saw their hopes for participating in the French Open Tennis Tour-nament fade at the Palais de Justice in a hearing room where emergency cases are heard. But the judge ruled that the issue was not the emergency that Connors. Goolagong and their lawyers thought it was, and that if they did not play in the French Open they would not starve. Af-ter all, the judge said, they do have their World Team Tenms

contracts to fall back on.
Judge Jean Regnault said that he was not ruling on who was right or wrong-the players or the French Tennis Federation which is banning them. But he did warn the federation to faire attention, because one of its bylaws could lead to "discrimingtion" charges if it is not careful. The law states that the FFT rules on the qualifications of players submitting entries to the prestigious and rich French Open. Connors, the co-ranked No. 1 in the United States, and Goolagong, winner of the French Open in 1971, can put together

good applications. Anti-WTT Move

The case reached the court because, earlier this month, the French federation began a vendetta against players from WTT, a North America-based organization which holds league play at the same time as the tournament trail hits Europe. The French refused to listen to the International Lawn Tennis Federation, which says that it is the sport's ruling body. The ILFT had ruled that WTT players could play anywhere they wanted.

Today, in the hearing room

Pitcairn Is Out Of Derby Field

LONDON, May 31 (UPI'.—Pitcairn, fourth favorite for Wednesday's English Derby horseraciag classic, was withdrawn today because of a virus infection.

"Pitcalrn is running a temperature and is obviously sick from a virus. We are very disappointed, but there is no chance of him running," trainer John Dunlop said at his Arundel, Sussex, stable.

The coit was to have been ridden by Australian Ron Hut-Pitcairn was 8-1 in the latest betting for the £85,-000 (\$204,000) race, behind 5-2 joint favorites Giacometti and Noncalco and French challenger Northern Taste, priced at 6-1.

decorated with a gold-colored ceiling and two chandeliers, the federation's lawyers sold that the French Open is ruled by the French Federation, and not by the ILTF nor anyone clie. Lawyer Christian Pechenard, feeling the need to shout, said, "I am the master as to whom I receive in my home." He then spent 20 minutes calling tennic in the

Pro Referees Urged After Kodes Incident

ROME, May 31 (Routers) .-The Association of Tennis Professionals will press for the appointment of professional, salaried referees to supervise major tournament: as the result of the disqualification of Czechoslovakian Jan Kodes yesterday,

Kodes was disqualified during an argument on court with the referee. And the ATP, which says it deplores the lock of fair play and professionalism in the incident, will make it one of the major usues at the grand prix committee meeting in Rome this weekend.

Although Kodes was clearly to blame for pushing the official tournament referee and consequently deserved to be defaulted, ATP officials and players who witnessed the incident were of the unanimous opinion that the entire situation was mishandled.

Sports Notes

Dick Butkus, an all-pro linebacker for the Chicago Bears, has sued the National Football League club for \$1.6 million, charging breach of contract.

Butkus, who suffered a severe knee injury in a game last November, charged in his cir-cuit court suit in Chicago that the club management did not provide him with the medical and hospital care it had promised in a five-year contract he signed last July 13.

The suit added that extensive injections of cortisone and other drugs caused irreparable damage to Butkus's knee and that the treatments were made vithout advising Buttus of the long-term effects of the drugs. Although Butkus's annual salary under the terms of the contract is \$115,000, the suit. Ald by James Dooley. asked \$600,000 in compensatory damages, plus \$1 million in nunitive di mages.

Thursday's Line Scores

Cruddy Lot

Pouring beer on an injured player is contemptible, and disgusted neighbors of those who did it turned the creeps over to the Cincinnati police. Drunken slobs who throw bottles or cans at players or umpires should wind up in the sneezer. Those hoodlums in hard yellow hats who made a slum of the Wrigley Field bleachers in Chicago a few summers back were a genuinely cruddy lot.

Still, by comparison with fans attracted to other games, patrons of baseball today are downright courtly.

Only the other day there was that not at a soccer match in Rottertiam where 150 persons were injured, some seriously, and 50 arrested. Seems that when a Dutch team took a 1-0 lead over the Tottenhan, Hotspurs from England, a mob of Britons about 100 strong

started working over the local fans with bottles and clubs. This has become commonplace wherever soccer is popular. The English have had to beef up police forces both at the games and on trains and buses carrying fans. In most countries, construction of a soccer stadium starts with a most and barbed wire between grandstand and playing field. In Latin lands the headline: "23 die in

sorver riot," is not uncommon. The volatile Latin temperament has been expressed in colorful terms at boxing matches, not only in Rome or Mexico City, but also in New York. There has not been a first-rate dust-up in the new Madison Square Garden, but the old hall on Eighth Avenue was the scene of some beauties when The Fancy, disagreeing with a decision, would express their views by uprooting seats and hurling them from

the balcony. On most occasions when a fight crowd is less than ruly, the New York Times runs an editorial calling for the abolition of boxing because "pugilism brutalizes both the participant and the spectator." This is true. It is also true that college football brutalizes students of the arts, sending them out en masse to slug one another bloody for possession of the goal posts while mounted cons-if the game happens to be in Philadelphia—ride about pounding on young skulls with

Hanky Panky

There is an impressive body of evidence that hell hath no fury like horse players who suspect hanky panky. Well within memory are spectacular riots at Roosevelt Raceway and Suffolk Downs, proving that both trotters and runners can brutalize spectators.

History does not tell us exactly when it was that the fathers of baseball came to appreciate the brutalizing force of the national pastime, and began serving beverages in paper cups instead of bottles. Perhaps it was back in 1932 when Whitey Witt, a Yankee outfielder, was felled by a bottle and carried from the field in St. Louis, unconscious and bleeding.

Once that wouldn't have raised an eyebrow. "The Umpire Story," by James Kahn, gives us this picture of baseball in the 1870s when betting pools were sold openly: "Scenes of drunkenness and riot were of everyday occurrence, not only in the stands but on the field. Fistfights broke out among the players, and the umpires were either helpless or too frightened to stop them. Gamblers got to ballplayers and rigged games, and then sent hoodlums and bully-boys around to

The same source reminds us that, when Fred Vinson was chief justice of the Supreme Court, his wife told reporters that his principal relaxation was watching ballgames on television "and his greatest delight is in hollering at the umpire."

All-Purpose Speech

WASHINGTON. - Vice-Presi- his guilt or innocence once and dent Ford has been zigging for all. and sagging on the question of impeachment for some time. It's a very difficult position for him to be in, and since he has to give ao many speeches, it's hard for him to remember

what he said the ciay before. Because I admire the Vice-President very written a stanciard speech for him which should tover all the

It goes like Buchwaid My fellow Americans.

I would like to say before I begin that I am neither for impeachment or against impeach-ment, I believe that a little impeachment never hurt anybody. But if impeachment gets out of hand and starts to affect the country, then we should take emother look at it and decide whether there is another way of resolving the issue which can accommodate the positions of those who are for it, as opposed to those who are against it.

Now let me say at the outset that on the basis of all I have read so far the President is not guilty of any impeachable offenses. At the same time, if he is withholding evidence which could show that he should be impeached, then he should turn this evidence over to the House Judiciary Committee and settle

'Argentines Date Vikings Centuries Before Columbus

BUENOS AIRES, May 31 (UPI). -Gente magazine has claimed that wall inscriptions found in Paraguay and verified by an anthropologist in Buenos Aires prove that Vikings visited America 500 years before Christopher Columbus.

Photographs and copies of writing were analyzed in Buenos Aires by anthropologist Jaime Maria de Mahleu, Gente said. Mr. Mahieu said that the inscriptions were written in 967 by Vikings who came there after a royage from Mexico.

I have talked to the President on this very subject and ex-pressed my views quite clearly. He has expressed his views to me, It's quite possible that on the basis of our discussions we may

But the fact that we disagree does not mean that we do not the question in the same way. The President may have his rea-sons for not turning over the tapes to the Judiciary Committee, and I may have my reasons for him to get the whole thing out in the open. Because the President is stonewalling Congress does not mean that I do not support his efforts to do the right thing no matter if I personally believe it's the wrong thing.

I feel the House committee has enough evidence now to judge whether the president is guilty of high crimes and misdemeanors and they shouldn't ask for any more evidence, unless they believe they need the evidence to find out if the President is guilty or not. If they need it, then the President should turn it over to them, though I think it would be a mistake if the President turned over the material and it was then decided it wasn't the proof they

Furthermore, and I have said this many times, the fact that the President has decided to refuse to give more evidence to the Congress should not be in-terpreted to mean he is hiding anything. I do not know if he is hiding anything, because I have not heard the tapes, And I do not want to hear the tapes, because if I heard them I would have to make a judgment as to the President's innocence or guilt, which would be a mistake if at some future date I would be asked where I stand.

I can tell you though that every time I have met with the President he has been in excellent health both mentally and physically and I am impressed at his ability to see everything so clearly, although at times it doesn't seem

very clear to me. In conclusion I would like to say that I will continue to support the President, although I may disagree with him. And I know he supports me. That's why he keeps calling me in to talk to him about why I am not sup-porting him. If he shouldn't try to change my mind, would he?

Mary Blume

Scholarship, Romance and Henry Adams

Tautira is isolated and iden-tical since the mountains rose from the ocean. I feel here immoral longings, for time is always the same.

> Henry Adams "Letter From Tahili."

DARIS (IHT). - Since the days of Bougainville, the South Seas, and especially Tahiti, have been magic places to the French-exotic, beautiful, home of the noble savage in the late 18th century and of the Gauguin nude in the late 19th. It is a part of the world that inspires both scholarship and romance, a very French com-

Among the groups devoted to the study and exploration of the South Seas is the Societé des Océanistes, which is tucked in a corner of the Musée de l'Homme in Paris and which includes in its membership a number of Marist fathers who served as missionaries in the South Seas.

In 1934, in San Francisco, a leading member of the society, Father Patrick O'Reilly who, as his name does not suggest, is from Le Hayre, came across a second-hand copy of W.C. Ford's edition of Henry Adams's letters. Father O'Rellly found himself reading with fascination Adams's letters about the trip he made to the South Seas in 1890-1891, accompanied by the genial painter and maker of stained glass windows. John

Adams has been widely translated in French-not only did his best-known works, "The Education of Henry Adams" and "Mont-Saint-Michel and Chartres" come out in France, but so did his novel, "Democracy." in 1885 and the "Memoirs of Arii Taimai," which was a re-sult of his South Seas tour. But his correspondence had not been translated. Father O'Reilly brooded on the project until he found the right translator

Detail from a La Farge watercolor done in Fiji, while the artist was traveling

with Henry Adams. and now. 40 years after his visit to San Francisco, an edi-

letters is finally out in France. Adams's "Lettres des Mers du Sud," published by the Société des Océanistes and available at the Musée de l'Homme, is also general interest for many of the letters in the book have never been published, even in English.

tion of Adams's South Seas

The translator is Evelyne de Chazeaux, who has lived in Tahiti, In 1969, at Father O'Reilly's behest, she went to the United States to discuss the Adams project with the Massachusetts Historical Society, custodians of the Adams papers. Permission to translate unpublished letters was given, and La Farge's grandson, the art critic Henry La Farge, made a selection of La Farge paintings from American collections to illustrate the book.

Adams and La Farge travelled with considerable luggage and a Japanese manservant, covering in the most leisurely way imaginable Hawaii, Samoa, Tahiti and Fiji. Mrs. de Chazeaux suggests that they were the first men to wander the Pacific in the manner in which Lamartine, Chateaubriand and Byron had travelled the East. To Adams, Tahiti was a sort of melange of memories from Herman Melville, Captain Cook, French opera and Pierre Loti. Loti had in fact been in Tahiti only a few years before Adams

and La Farge. Gauguin arrived there only days after their departure.

Adams wrote his affectionate and astute letters to friends and relations in the mornings in a very round neat hand. Occasionally he is waspish—his descriptions of the maddening Robert Louis Stevenson in Samoa are very funny, though ne was paid back in kind when Stevenson wrote that he had been visited by two Americans: one was the painter La Farge but he didn't recall the other chap's name.

Adams diligently carried a camera on his trips, rapidly reaching the point where he detested photographs for the distortions they inevitably create. They are, he decided, as dangerous as a dreary trave-logue. The many photographs he took have never been found.

The themes of Adams's books are of course also present in his letters and, especially, in the "Memoirs of Taimai," the last Arii or female chief of Tahiti's Teva clan. Suggesting that the memoirs were written, and not just edited, by Adams, one scholar points out that their basic theme is typically Adams: the degradation of a healthy and stable culture as a result of its contact with European civilization.

Another American scholar suggests that Adams was attracted to Tanitian legend because it confirmed his atti-

tude toward women. In a letter, Adams refers to Arii Taimai as the incarnation of the archaic woman, a simpler version of the Virgin Mary of Adams's late work, "Mont-Saint-Michel and Chartres." Composing the "Memoirs of Arii Taimai," says the Adams scholar Ernest Samuels. gave a certain sacredness to his South Seas experience and forestalled any more public record of his long voyage. The

South Seas, Adams said, he

could not touch for fear of

betraying himself."

Adams's letters are also interesting for they belong to the long dark period of 20 years that followed his wife's suicide in 1885. Speaking of himself in the third person in his "Education of Henry Adams," he refers briefly to the period just after his journey with La Farge:

"Adams would rather, as choice, have gone back to the East, if only to sleep forever in the trade winds under the southern stars, wandering over the dark purple ocean, with its purple sense of solitude and void. Not that he liked the sensation, but that it was the most unearthly he had felt.

Mrs. de Chazeaux has translated the letters in a workmanlike manner with, happily, uo attempt to reproduce Adams's extraordinary style. The book does include one barbarism that could easily be fixed: on the dust jacket the author's first name is spelled Henri.
